Volume 26 General Index

AADLAND, E. *See* KITTANG, E, AADLAND, E, *et al.*

Abdominal tuberculosis *(Leading article)*, **1275**

—— —— in urban Britain (experience of W. London district general hospital, 1973–83), **1296**

ABRAVANEL, G M. *See* MARTY, J F, VERNAY, M Y, *et al.*

Abscess of liver, amoebic, cholestasis in, **140**

Acetaldehyde as initiator of hepatocellular damage in acute alcoholic liver disease, **1065**

Acetate absorption and metabolism in rabbit hindgut, **562**

ACHESON, D W K. *See* BRAGANZA, J M, and ACHESON, D W K

Acid exposure, endogenous, oesophageal motor events in healthy subjects and in oesophagitis during, **336**

ACTH and gastrin, neuroendocrine islet cell tumour producing, in calcifying chronic pancreatitis *(Case report)*, **426**

Adenine arabinoside 5′-monophosphate in chronic hepatitis B virus infection *(Clinical trial)*, **745**

Adenocarcinoma, colonic, elution of cytomegalovirus antibodies from, **1053**

ADEYEMI, E O, NEUMANN, S, CHADWICK, V S, HODGSON, H J F, and PEPYS, M B: Circulating human leucocyte elastase in patients with inflammatory bowel disease, **1306**

Adrenergic effects on epidermal growth factor secretion from Brunner's glands, **920**

Adrenocorticotrophic hormone. *See* ACTH

ADRIAN, T E. *See* PRESTON, D M, ADRIAN, T E, *et al.*

——. *See* SAVAGE, A P, GORNACZ, G E, *et al.*

——. *See* WOOD, S M, KRAENZLIN, M E, *et al.*

Age, normal gastro-oesophageal reflux influenced by?, **799**

AHONEN, J. *See* PAIMELA, H, HÄRKÖNEN, M, *et al.*

AIDS, diarrhoea and malabsorption in, 4 cases showing frequency of unusual protozoan infestations, **179**

——, granulomatous involvement of liver in, **1220**

AINGE, G. *See* POYNTER, D, PICK, C R, *et al.*

AINLEY, C C. *See* LEDGER, J E, WATSON, G J, *et al.*

AIREY, M. *See* MAYER, A D, AIREY, M, *et al.*

AKKERMANS, L M A. *See* SMOUT, A J P M, BOGAARD, J W, *et al.*

AL-AGHBAR, M N A, NEUBERGER, J, WILLIAMS, R, and EDDLESTON, A L W F: Mononuclear cell complement blockade in primary biliary cirrhosis, **20**

Alcohol, absolute, endoscopic sclerotherapy using, **120**

—— and parenteral heroin abuse in young adults, association of hepatic cirrhosis with *(Leading article)*, **8**

Alcoholic cirrhosis, ascitic fluid pH in, diagnosis of spontaneous bacterial peritonitis from, reevaluation of, **332**

—— ——, decompensated, renal function enhancement with ornipressin in *(Case report)*, **1385**

—— liver disease, acute, acetaldehyde as initiator of hepatocellular damage in, **1065**

—— pancreatitis, chronic, comparison of oral (PABA) pancreatic function test, secretin-pancreozymin test and ERCP in, **1257**

—— ——, development of, diet and drinking habits in relation to, **882**

ALEXANDER-WILLIAMS, J. *See* FABRICIUS, P J, GYDE, S N, *et al.*

Alimentary tract. *See* Gastrointestinal tract

AL-JANABI, M N. *See* READ, N W, AL-JANABI, M N, *et al.*

Alkaloid exposure, toxic, quantification in adults with herbal tea induced hepatic veno-occlusive disease *(Case reports)*, **101**

ALLAN, A, BRISTOL, J B, and WILLIAMSON, R C N: Crypt cell production rate in ulcerative proctocolitis: differential increments in remission and relapse, **999**

ALLAN, R N. *See* FABRICIUS, P J, GYDE, S N, *et al.*

——. *See* RHODES, J M, GALLIMORE, R, *et al.*

——. *See* RHODES, J M, MARSHALL, T, *et al.*

ALLEN-MERSH, T G: What is the significance of pancreatic ductal mucinous hyperplasia?, **825**

ALLISON, M C, RENFREW, C C, WEBB, W J S, CHAPPELL, M E, and POUNDER, R E: Neuroendocrine islet cell tumour producing gastrin and ACTH in a patient with calcifying chronic pancreatitis *(Case report)*, **426**

AL-MUKHTAR, M Y T. *See* MIAZZA, B M, AL-MUKHTAR, M Y T, *et al.*

——. *See* SAGOR, G R, GHATEI, M A, *et al.*

ALPEROVITCH, A. *See* SAINT-MARC GIRARDIN, M-F, LE MINOR, M, *et al.*

Alpha-heavy chain disease, non-secretory, in plasma cell infiltration of small bowel, no evidence for, **928**

AMBINDER, E P. *See* COHEN, L B, AMBINDER, E P, *et al.*

AMERIGO, J. *See* EARLAM, R J, AMERIGO, J, *et al.*

Amino acids, free, whole protein and hydrolysed protein, relative nutritional value of, **694**

5-Aminosalicylic acid enemas in ulcerative colitis, topical administration and rectal absorption and excretion, **400**

Anal sphincter, external, musculature, and puborectalis muscle, innervation to, in anorectal incontinence and rectal prolapse, **470**

ANAND, B S. *See* BHALLA, S, VIJ, J C, *et al.*

——. *See* SARIN, S K, SACHDEVA, G K, *et al.*

——. *See* VIJ, J C, ANAND, B S, *et al.*

ANDERSEN, B N, LARSEN, N-E, RUNE, S J, and WORNING, H: Development of cimetidine resistance in the Zollinger-Ellison syndrome *(Case report)*, **1263**

ANDERSON, K C. *See* WATTERS, D A K, SMITH, A N, *et al.*

ANDERSON, M G, and MURRAY-LYON, I M: Natural history of the HBsAg carrier *(Progress report)*, **848**

Aneurysm of hepatic artery, diagnosis and management of, CAT scanning in *(Case report)*, **752**

ANGELELI, A Y O. *See* RODRIGUES, M A M, DE CAMARGO, J L V, *et al.*

ANNIBALE, B. *See* KOHN, A, ANNIBALE, B, *et al.*

Anorectal and gastrointestinal disorders in homosexual men *(Leading article)*, **869**

—— incontinence and rectal prolapse, innervation to puborectalis and external anal sphincter muscles in, **470**

ANSALDI, N. *See* FARCI, P, BARBERA, C, *et al.*

ANTHONY, P P. *See* FREEMAN, K, ANTHONY, P P, *et al.*

Antibiotics, non-absorbable, plus elemental diet in active Crohn's disease, comparative trial with prednisolone, **994**

Antibodies, cytomegalovirus, elution from adenocarcinoma of colon, **1053**

——, monoclonal. *See* Monoclonal antibodies

—— to gliadin detected by immunofluorescence and micro-ELISA method, value as markers of active childhood and adult coeliac disease, **667**

Antibody, monoclonal. *See* Monoclonal antibody

Antibody-mediated hepatocyte injury in methyl dopa induced hepatotoxicity, **1233**

Antidiarrhoeal agent, new. *See* Nufenoxole

Antigen, hepatitis B surface. *See* Hepatitis B surface antigen

——, oncofetal, pancreatic, enzyme immunoassay of, as marker of pancreatic cancer, **450**

Antigens, HLA-DR, not associated with susceptibility to primary biliary cirrhosis, **625**

Anti-inflammatory drugs, non-steroidal, and peptic ulcer perforation, **359**; *(Letters)*, **981**

Antrum, oesophagus and duodenum, histological appearances and correlation with symptoms in duodenal ulcer, **95**

Appendix, gut associated lymphoid tissue in, morphological and immunocytochemical study of, **672**

ARMSTRONG, C P, TAYLOR, T V, and TORRANCE, H B: Pressure, volume and the pancreas, **615**

ARNDT, R. *See* SCHMIEGEL, W H, KREIKER, C, *et al.*

ARTHUR, M J P, TANNER, A R, PATEL, C, WRIGHT, R, RENWICK, A G, and GEORGE, C F: Pharmacology of propranolol in patients with cirrhosis and portal hypertension, **14**

——. *See also* HILLER, K, SMITH, C L, *et al.*

ARVIDSSON, S, FÄLT, K, and HAGLUND, U: Gastric mucosal damage in sepsis—effects of pretreatment with a synthetic prostaglandin E_1 analogue, **1025**

Ascites and cirrhosis, renal function impairment induced by posture change in, **629**

——, chylous, and intestinal lymphangiectasia in 'yellow-nail' syndrome *(Case report)*, **1266**
——, refractory, peritoneovenous shunt surgery for, morbidity and mortality after, **1070**
Ascitic fluid pH in alcoholic cirrhosis for diagnosis of spontaneous bacterial peritonitis, reevaluation of, **332**
Aspirin and taurocholate, gastric mucosal damage in rat induced by, effect of cimetidine and omeprazole, **770**
AURICCHIO, S. *See* PIGNATA, C, TRONCONE, R, *et al.*
Autonomic regulation of postprandial plasma somatostatin, gastrin, and insulin, **683**
AXON, A T R. *See* DICKINSON, R J, O'CONNOR, H J, *et al.*
——. *See* HAMILTON, I, COBDEN, I, *et al.*
——. *See* WINSTANLEY, P A, ELLIS W R, *et al.*
AYLOTT, A. *See* DANESH, B J Z, BURKE, M, *et al.*
AZIZ, L A. *See* BATE, C M, and AZIZ, L A

BABB, R R, and TROLLOPE, M L: Acute fulminating amoebic colitis: survival after total colectomy *(Case report)*, **301**
Bacterial peritonitis, spontaneous *(Leading article)*, **325**
—— ——, ——, diagnosis from ascitic fluid pH in alcoholic cirrhosis, reevaluation of, **332**
BAILLOD, R. *See* JEFFREY, G, KIBBLER, C C, *et al.*
BALDI F, FERRARINI, F, BALESTRA, R, BORIONI, D, LONGANESI A, MIGLIOLI, M, and BARBARA, L: Oesophageal motor events at the occurrence of acid reflux and during endogenous acid exposure in healthy subjects and in patients with oesophagitis, **336**
BALESTRA, R. *See* BALDI, F, FERRARINI, F, *et al.*
Balloon expulsion from rectum in constipation of different types, **1049**
BALSANO, F. *See* BARNABA, V, TAMBURRINI, E, *et al.*

Abstracts Index

Abdominal tuberculosis in urban Britain, importance and prevalence among immigrants, **A566**

Acetaldehyde metabolism, impairment in non-alcoholic liver disorders, **A563**

Acetate absorption in normal rat jejunum, mechanism of, **A1109**

Acetylsalicyclic acid. *See* Aspirin

Achalasia, ambulatory oesophageal pH monitoring in, **A1144**

——, surgical and bag dilatation treatment of, audit of, **A541**

ACHESON, D W K, *et al.*: Dietary antioxidants, cytochrome P450, and non-alcoholic pancreatitis, **A577**

Adenoma-carcinoma sequence, colorectal, experimental support demonstrated with American but not with British histopathological criteria, **A573**

Adenomata and colonic carcinoma, abnormal lectin binding in, **A565**

—— synchronous with colorectal cancer, Ca 19-9 antibody in, **A564**

Adenosine triphosphatase, duodenal brush border membrane HCO_3^--ATPase, implicated in HCO_3^- secretion, as expression of alkaline phosphatase, **A1110**

Adrenaline, endoscopic injection of, in bleeding peptic ulcers, **A1136**

ADRIAN, T E, *et al.*: Increased peptide YY release in patients with ileal resection, **A550**

AFDHAL, N H, *et al.*: Ca 19-9 antibody in colorectal cancer and synchronous adenomata, **A564**

AINLEY, C, *et al.*: Factors affecting suppression of cell mediated immunity in inflammatory bowel disease, **A1122**

Air and carbon dioxide in double contrast barium enema, comparison of discomfort after, **A582**

Albendazole, prophylactic, after operations for hydatid disease, animal study, **A1126**

Albumin, ^{51}Cr-labelled, and α_1-antitrypsin in assessment of faecal protein loss, **A1112**

Alcohol abuse and HBV infection, synergic effect accentuating liver disease or casual association?, **A1124**

—— and gallstones, acute pancreatitis related to, prospective comparison of clinical and biochemical features of attack, **A581**

——, blood levels, reduction by dietary lipid, mechanism of, **A1113**

Alcoholic and non-alcoholic subjects with varices, gastrointestinal bleeding in, short and long term prognosis, **A575**

—— liver disease and autonomic neuropathy, **A1139**

Alcoholism, decreased red cell aldehyde dehydrogenase activity in, **A1100**

Aldehyde dehydrogenase activity of erythrocytes in health and disease and as marker for hepatic aldehyde dehydrogenase activity, **A1100**

Alginate/antacid mixture in treatment of oesophagitis, comparison with antacid/dimethicone mixture, **A574**

Alkali acceleration of omeprazole absorption in Zollinger-Ellison syndrome, **A1134**

Alkaline secretion, luminal, in amphibian duodenum *in vitro*, effects of eicosanoids, **A1110**

Alkaline phosphatase, duodenal brush border membrane HCO_3^--ATPase, implicated in HCO_3^- secretion, as expression of, **A1110**

ALLEN, J M, *et al.*: Omeprazole treatment results in elevation of antral gastrin and reciprocal reduction in somatostatin concentrations, **A558**

——, *et al.*: Presence, distribution and effects of neuropeptide Y in the mammalian gut, **A547**

AL MARDINI, H, *et al.*: Effect of methionine loading and endogenous hypermethioninaemia on blood mercaptans in man, **A568**

Alpha-adrenoreceptor-mediated inhibition by dopamine of human isolated colonic muscle, **A582**

ALSTEAD, E M, *et al.*: Comparison of conventional BSP kinetics with single photon emission tomography, **A563**

Aluminium, effect on bicarbonate secretion by isolated amphibian gastroduodenal mucosa, **A1150**

AMBROSE, N S, *et al.*: Patients with pruritis ani leak liquids from the anal canal more readily than normal subjects, **A1124**

Amino acid solutions in total parenteral nutrition, efficacy affected by glycine content?, **A1114**

—— acids, branched chain, plasma concentrations, increase after high lipid parenteral feeds, investigation for possible use in portasystemic encephalopathy, **A569**

—— ——, plasma and CSF levels, effects of dietary protein, correlation with degree of encephalopathy, **A1125**

Ampicillin, effect on colonic salvage of carbohydrate, **A1152**

Anal canal, abnormal leakage of liquids from, in pruritis ani, **A1124**

—— fissure, lateral subcutaneous sphincterotomy versus manual dilatation of anus under general anaesthetic for, **A570**

—— sphincter competence, analysis by measurement of anal compliance, **A1123**

ANDRÉ, C, *et al.*: Indirect evidence against the viral hypothesis in Crohn's disease in the Lyons area, **A1155**

ANDRÉ, F, *et al.*: Influence of human and murine giardiasis on intestinal permeability, **A1142**

ANDREWS, H A, and ALLAN, R N: How can the excess mortality from Crohn's disease be reduced?, **A1156**

Androgen receptor, cytosolic, of classical type, identification in rat liver, **A569**

Angelchik prosthesis for reflux control, comparison with Nissen fundoplication, **A555**

—— ——, late failures of, **A1143**

Angiodysplasia, colonic, surgery in, outcome of, **A1155**

Anorectal myectomy, value in treatment of chronic constipation, **A1130**

Antacid/dimethicone mixture in treatment of oesophagitis, comparison with alginate/antacid mixture, **A574**

Antero-posterior rectopexy for solitary rectal ulcer syndrome without overt rectal prolapse, **A570**

Antibiotics, single dose intravenous administration, emergence of *Cl difficile* and disturbance of faecal flora after, **A1152**

Antibodies, IgG subclass, to wheat gliadin in coeliac disease, **A1113**

——, monoclonal. *See* Monoclonal antibodies

—— stimulating gastric parietal cells, immunological forms of duodenal ulcer produced by?, **A1116**

—— to *Campylobacter pyloridis*, gastric, local, **A1106**

Antibody, monoclonal. *See* Monoclonal antibody

Antigen, carcinoembryonic. *See* Carcinoembryonic antigen

Antigenic determinants of wheat protein in coeliac disease, **A1108**

Antigens, liver cell, aberrant cellular reactivity to, and immunoregulatory defects in families of patients with autoimmune chronic active hepatitis, **A1100**

——, MHC, class I (HLA-A,B,C) and class II (HLA-DR), expression by colonic epithelium in intestinal schistosomiasis, **A1120**

Anti-inflammatory drugs, non-steroidal, and bleeding peptic ulcer, **A1137**

—— ——, ——, association with emergency peptic ulcer surgery, **A1118**

—— ——, ——, iatrogenic ileal strictures caused by, pathology of, **A542**

—— ——, ——, —— ileocaecitis due to, **A566**

Antioxidants, dietary, and cytochrome P450 induction in non-alcoholic pancreatitis, **A577**

Antipyrine and paracetamol clearance in chronic liver disease, effect of acute and chronic propranolol administration, **A1102**

α_1-Antitrypsin and ^{51}Cr-albumin in assessment of faecal protein loss, **A1112**

Antiviral therapy, response rate to, factors determining, **A568**

Antral gastritis, chronic, in duodenal ulcer, natural history and response to misoprostol treatment, **A1149**

—— ——, duodenal ulcer, and reflux oesophagitis, luminal and mucosal pH in, **A1117**

—— mucosa, gastrin content, and serum gastrin and pepsinogen I

in duodenal ulcer, influence of RP 40749 treatment, **A1119**
Antro-antral reflexes, genesis in anaesthetised ferret, permissive role for vagus nerves in, **A1108**
Appendicectomy, emergency, surgeon's macroscopic diagnosis at, relationship to subsequent histopathology, **A565**
Arachidonic acid metabolism and leucocyte infiltration, as determined by myeloperoxidase activity, in colon in model of IBD, **A1148**
ARKLE, S, and ARGENT, B E: Morphological and biochemical studies on rat pancreatic ducts maintained in tissue culture, **A1132**
ARMITAGE, N C, *et al.*: *In vitro* binding and *in vivo* localisation of an anti CEA monoclonal antibody (C46), **A1129**
ARMSTRONG, C P, *et al.*: Bile, infection and pancreatic duct integrity, **A649**
ARTHUR, M J P, *et al.*: Enhanced respiratory burst activity of *C parvum* elicited hepatic macrophages compared with normal Kupffer cells in the rat, **A1103**
Aspirin, absorption and effect on gastric mucosal electrical potential difference, comparison with non-acetylated salicylate, **A559**
——, gastric mucosal bleeding induced by, reduction by enprostil, **A560**
—— treatment, chronic, adaptation of gastric mucosa to, measured by gastric microbleeding and cell exfoliation, **A560**
Atopic status and food intolerance in irritable bowel syndrome, **A572**
Atropine, dissociated effect on hypergastrinaemia induced by single or repeated doses of omeprazole, **A1147**
Autonomic neuropathy and alcoholic liver disease, **A1139**
Azodisalicylate for treatment of active ulcerative colitis, **A1157**
—— —— —— of ulcerative colitis, clinical trial and assessment of drug disposition, **A542**
Azygous blood flow and hepatic venous pressures in cirrhosis, effect of long acting somatostatin analogue (SMS 201–995), **A562**

Baclofen (PCP-GABA), newly discovered activity as stimulant of gastric acid secretion, clinical and experimental significance, **A545**
Bacterial contamination of upper small intestine in chronic renal failure, **A1140**
BADR EL-DIN, S, *et al.*: Expression of MHC Class I (HLA-A,B,C) and Class II (HLA-DR) antigens by colonic epithelium in human intestinal schistosomiasis, **A1120**
——, *et al.*: T-lymphocyte subsets in the colonic mucosa of patients with intestinal schistosomiasis, **A1121**
BAKER, P R, *et al.*: Long-term oral contraceptive use and serum total cholesterol and total bile acids, **A1127**
BALASUBRAMANIAM, K, *et al.*: Compensatory increase in lingual lipase activity and intragastric lipolysis in pancreatic steatorrhoea caused by adult cystic fibrosis, **A576**
——, *et al.*: Therapeutic potential of acid resistant fungal lipase in pancreatic steatorrhoea, **A575**
BALLANTYNE, K C, *et al.*: Flow cytometric analysis of the DNA content of gastric cancer, **A1106**
——, *et al.*: Monoclonal antibody binding to primary and metastatic colorectal cancer, **A1154**
Balloons, hydrostatic, in dilatation of oesophageal strictures, **A1143**
—— versus bougies for dilatation of benign oesophageal stricture, trial of, **A1136**
BANNISTER, J J, *et al.*: Experimental support for a simple model of defecation, **A1131**
——, *et al.*: Faecal impaction in the elderly, **A567**
——, *et al.*: Faecal incontinence in the elderly impacted patients, **A570**
——, *et al.*: Urological abnormalities in patients with slow transit constipation, **A1131**
BANNISTER, P, *et al.*: Endocrine liver: identification of the classical cytosolic androgen receptor in rat liver, **A569**
——, *et al.*: Sex hormones and sex hormone binding globulin in postmenopausal women with non-alcoholic liver cirrhosis, **A570**
BARCLAY, G R, and TURNBERG, L A: Influence of physical and psychological stress on fluid and electrolyte absorption in the human jejunum *in vivo*, **A554**
BARDHAN, K D, *et al.*: Changing pattern of admissions for duodenal ulcer in the Trent region, 1972–1983, **A546**
——, *et al.*: Comparison of two different doses of omeprazole versus ranitidine in duodenal ulcer healing, **A557**
——, *et al.*: Enprostil versus ranitidine in duodenal ulcer, **A1149**
Barium enema, double contrast, with carbon dioxide and air, comparison of discomfort after, **A582**
—— radiology in gastro-oesophageal reflux disease, reappraisal of, **A1103**
BARTER, F, and TANNER, A R: Autonomic neuropathy and alcoholic liver disease, **A1139**
BARTER, S, *et al.*: Comparative studies of non-invasive investigation of Budd-Chiari syndrome, **A568**
BASILISCO, G, *et al.*: Do endogenous opioids regulate mouth-to-caecum transit time in man?, **A551**
BAUER, F E, *et al.*: Distribution and molecular forms of galanin in the human intestine, **A548**
——, *et al.*: Galanin in gut peptide secreting tumours and its diagnostic value in phaeochromocytomas, **A1112**
BENINI, L, *et al.*: Hyperenzymemia and molecular size distribution of trypsin and elastase 1 in the serum after ERCP and during acute pancreatitis, **A649**
Beta-blockers in protection of upper gastrointestinal function from disturbance by stress, **A559**
BIANCHI PORRO, G, *et al.*: Comparison between three methods of oesophageal pH recording in the diagnosis of gastro-oesophageal acid reflux, **A1104**
——, *et al.*: Natural history of silent duodenal ulcer, **A1145**
Bicarbonate, effect on efficacy of oral rehydration therapy in rat model of secretory diarrhoea, **A1142**
—— secretion by isolated amphibian duodenum, effect of electrical field stimulation, **A1110**
—— —— —— —— —— gastroduodenal mucosa, effect of aluminium, **A1150**
—— ——, duodenal brush border membrane HCO_3^--ATPase, implicated in, as expression of alkaline phosphatase, **A1110**
—— ——, gastroduodenal, amphibian, isolated, effect of sucralfate, **A1119**
Bile acid profiles, duodenal, in patients with colorectal polyps, **A1129**
—— —— regimen, optimum, for rapid gall stone dissolution, **A576**
—— —— transport, NA^+-dependent, ileal, regulation of, **A1113**
—— acids and cholesterol, total, serum levels, and long-term oral contraceptive use, **A1127**
—— ——, faecal, excretion changes after promotion of colonic cancer by small bowel resection in rat, **A564**
—— —— involved in regulation of mouth-to-caecum transit time?, **A1132**
